Elon Musk Meets Chinese Foreign Minister, Who Calls For 'mutual Respect' In U.S. Relations

China's foreign minister met with Tesla CEO Elon Musk, emphasizing the need for mutual respect in strained U.S.-Chinese relations. The meeting aimed to reassure foreign companies of their welcome in China. Amid tensions, China rejected a request for a meeting between its defense minister and the U.S. defense secretary. The Chinese minister highlighted the importance of peaceful coexistence and cooperation. Musk's visit aligns with China's efforts to attract investment. China expressed its commitment to openness and a favorable business environment. Tesla is open to expanding in China and opposes market decoupling.

Did We Just Dodge A Recession?

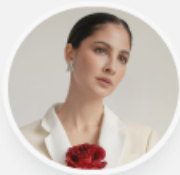

Despite predictions of an impending recession, the U.S. economy has shown resilience so far in 2023. Several factors have contributed to this unexpected strength. Delayed impact of interest rate hikes, global liquidity levels, and the continued strength of the U.S. consumer have all played a role. However, dark clouds loom on the horizon, including potential rate hikes, risks in the banking and real estate sectors, softening labor market conditions, and a potential manufacturing recession. These factors suggest that a recession in the coming quarters remains a possibility.
